

# Jerry Lee Lewis - Let's Put It Back Together Again

Tom: C

We had it once then watched it go to pieces  
 Just let it go and neither raised a hand  
 But I believe that you and I should give it one more try  
 So let's put it back together again  
 Let's put it back together one more time  
 Let's find that love together that once was yours and mine

We'll make it strong enough this time that won't ever end  
 Let's put it back together again  
 I know a lot of words were spoken darling as we parted  
 I'm sorry now for what I said back then  
 But I believe there's still a chance  
 Let's take it while we can  
 And let's put it back together again
