

Jerry Lee Lewis - Lonesome Fiddle Man

Tom: G

The one that I took dancing the one that I called a baby
 Walked down the aisle this morning with her old used to be
 Waitress take the band another round and tell them it's on me
 And ask them to do me one more favor please
 Let that lonesome fiddle man take the lead

He gets the kind of sound that my lonely heart needs
 I hear he's lost his darlin' just like me
 Let that lonesome fiddle man take the lead
 He struck a tune earlier this evening
 A lonesome song called Faded Love his favorite melody
 When I hear he's lost his darlin' just like me
 Let that lonesome fiddle man take the lead
