

Jerry Lee Lewis - Love Inflation

Tom: C

Love inflation Lord that's twice as high
 My poor heart is barely gettin' by
 Your sweet kisses are few but far between
 Love inflation is slowly killing me
 I've been living in a deep depression
 Since my love ain't worth all your time

Somebody else is getting your high interest
 And I'm just standing in the welfare line
 Honey I've been saving all my kisses
 But they're not in demand like before
 Darling I know you've got lots of good loving
 It's all gone before I reach the store
 Your love inflation is slowly killing me
