

Jerry Lee Lewis - She Never Said Goodbye

Tom: **C**

Well it hit me just like lightning
 Last night when I came home
 Walked into the old lonesome house
 I found my baby gone
 She never promised me forever
 She only said she'd try
 But I don't believe she's gone for good
 Cause she never said goodbye
 Any minute now she'll come walking in
 Just like she was never gone
 She's gonna look at me and smile
 And say honey I'm home

Now if I said I didn't miss her
 That would surly be a lie
 I don't believe she's gone for good
 Cause she never said goodbye
 Well I don't know where she is tonight
 But there's one thing I know
 If she was leaving ol' Killer for good
 I think she would've told me so
 She said Jerry Lee I love you
 My baby never lies
 I don't believe she's gone for good
 Cause she never said goodbye
 No I don't believe she's gone for good
 Cause she never said goodbye
