Jerry Lee Lewis - To Make Love Sweeter For You

Tom: C
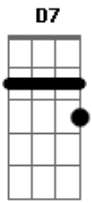

```
                C                                    D7
Well I'd like to send an orchid at the start of every day
     G7                         C                 G7
For flowers show more beauty than words could ever say
     C                    D7
You done so much for my world till all I wanna do
               C            G7                    C
Is try my best in every way to make love sweeter for you
```

```
                             D7
A thousand special compliments I pay to you each day
     G7                              C                G7
Your years would never tire of all the sweet things I would
say
```

```
          C                                    D7
Oh you never would be lonely honey you never would be blue
                           C           G7              C
Cause my one aim in life would be to make love sweeter for you
```

```
                                   G7              C
You given me the faith that took to make my dreams come true
                                   C7               F
That's why I want to live and breathe my every breath for you
C                                           D7
You've cleared the windows of my life and now that I see
through
               C            G7                    C
I'll do my best in every way to make love sweeter for you
D7                      C           G7                  C
Oh I'll do my best in every way to make love sweeter for you
```
