Tom: G
Intro: G C G

```
        G        C       G
Say you love me to my face
  G      Em   C          G
I need it more than your embrace
       C     G        C           G
Just say you want me, that's all it takes
 G           Em   C           G
Heart's getting thorn from your mistakes

                     C            D
'Cause I don't wanna fall in love
                  Em
If you don't wanna try
 D                  C        D
But all that I've been thinking of
                 Em
Is maybe that you're mine
 D            C          D       G G Em    D  C
Baby it looks as though we're running out of words to say
                    D
And love's floating away

     C     G       C        G
Just say you love me, just for today
 G         Em   C                 G
And don't give me time 'cause that's not the same
                                      G
Want to feel burning flames when you say my name
 G           Em
Want to feel passion flow into my bones
      C          G
Like blood through my veins

                     C            D
'Cause I don't wanna fall in love
                  Em
If you don't wanna try
 D                  C        D
But all that I've been thinking of
                 Em
Is maybe that you're mine
 D                 C          D     G G Em    D  C

Slowly slowly you run for me
      C         D
But do you know me at all?
  C          G             C
Some one told me love controls everything
               D
But only if you know!!

                     C            D
'Cause I don't wanna fall in love (no, no, no, no)
                  Em
If you don't wanna try
 D                  C        D
But all that I've been thinking of
                 Em
Is maybe that you're mine (mine, mine)

                     C            D
'Cause I don't wanna fall in love
                  Em
If you don't wanna try
 D                  C        D
But all that I've been thinking of
                 Em
Is maybe that you're mine
 D                 C          D     G G Em    D  C
Baby it looks as though we're running out of words to say
                    D
And love's floating away

            G D Em C
Won't you stay?
            G D C
Won't you stay?
