Jesus Culture - How He Loves

```
C)
 (com acordes na forma de
Capostraste na 6º casa
                                                               Yeah, He loves us
Intro: 2x: C Am7 G F7M/9
                                                               Woah, how He loves us
                                                               Woah, how He loves us
                                                                            F7M/9
                                                               Woah, how He loves.
(na primeira parte, seque com o mesmo dedilhado da introdução)
                                                               (essa parte com o mesmo dedilhado da introdução)
He is jealous for me
                                                               We are His portion and He is our prize,
Am7
Love's like a hurricane, I am a tree
                                                               Drawn to redemption by the grace in His eyes
                                           F7M/9
                                                                                              F7M/9
Bending beneath the weight of His wind and mercy
                                                               If grace is an ocean we're all sinking ha ha
When all of a sudden, I am unaware of these
                                                               So heaven meets earth like a sloppy wet kiss
                                                                      Am7
                                                               And my heart turns violently inside of my chest
Afflictions eclipsed by glory
And I realize just how beautiful You are
                                                               I don't have time to maintain these regrets
       F7M/9
                                                                      F7M/9
And how great your affections are for me.
                                                               When I think about the way
    C/12
And oh, how He loves us so
                                                               That, He loves us
          G
                                                                            Am7
Oh, how He loves us
                                                               Woah, how He loves us
               F7M/9
How He loves us so.
                                                               Woah, how He loves us
                                                                            F7M/9
( C Am7 G F7M/9 )
                                                               Woah, how He loves.
