Intro: B B
                                                            If they ask you to stand, well they just want you to kneel
Verso 1
                                                            If you don?t know what you want then you just have to take it
Got my hands in your pockets, I?ll take what I need
                                                            Pré-Refrão
Heavy feet I?ve been walking, 'cos nothing is free
It?s the end of the day, I don?t hear what you say at all
                                                            Hey man
Verso 2
                                                            You gotta understand
                                                            I got the world in my two hands
Got a mouthful of concrete, in every meal
                                                            Hev man
Got a fistful of nothing, 'cos nothing is real
                                                            Never goin? back, never going back
It?s the end of the day I don?t know how to feel at all
                                                                     (They say what i say...)
