G                      C
  But I'm too young to pretend
      G                          C
It's such a waste to always look behind you
G                      C

D                          C          Am

                   C
Before we meet again
G           D
Yeah, it's hard
      Am7                      C

'Cause every once in a while
You thing about if your gonna get yourself together
You should be happy just to be alive
And just because you just don't feel like comin' home
Don't mean that you'll never arrive

D                          C          Am
Yeah, I'm gonna have to move on
                   C
Before we meet again
G           D
Yeah, it's hard
          Am7                    C
If you had've only seen

G           D
