

Jillian Rossi - So What

tom:
Capostrate na 1ª casa

I told you to shut your damn mouth
When you said you weren't good enough
Said you weren't worth my time
Boy you couldn't stop crying

I told you to shut your damn mouth
When you said you weren't strong enough
Didn't wanna bring me down
But we're already falling

You've got your baggage
And I've got mine so what?
I love you the most
When you're falling over

You've got your baggage~
And I've got mine so what?
So what?

You're only afraid of love
When it's sitting next to you
Well I'm sitting right here

Never want to move

And everything this world
Has ever put you through
Gave you a diamond heart
It's polished by your scars

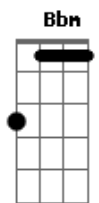

You've got your baggage
And I've got mine so what?
I love you the most
When you're falling over

You've got your baggage
And I've got mine so what?

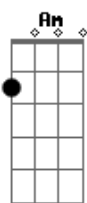

'Cause babe it's not as heavy as you think
So try and stop your mind from overthinking
'Cause babe it's not as heavy as you think
So try and stop your mind from overthinking
'Cause babe it's not as heavy as you think
So try and stop your mind from overthinking

You've got your baggage
And I've got mine so what?
I love us the most
When we're falling over
