

Jimi Hendrix - Hear My Train A Comin Live Intro

Tom: B

This is part of the intro to the version he plays on "His Greatest Hits Vol II". I think is one of the best versions he plays. Anyway I really like it and I hope someone will the tab. This is just what i've figured out, I hope its correct. :)

Wont get too technical on the bends and such, this is mostly bare bones... mostly.

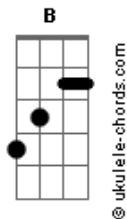

... I think it's in Standard down a 1/2, i could be wrong but it sounds ok to me.

- Legend
- b= bend
 - h= hammer on
 - v= vibrato
 - ~= hold note
 - /= slide, slide to note
 - ()= harmonic, ... ?
 - pb= pre-bend
 - r= release bend

With Wah, slight vibrato on each note, more on indicated notes

Theres a small bit I missed in the transition played at the

Acordes

end of riff 1 sounds like,

Muted a bit i think.

Slight Vibrato on each note (riff 2)

```

eb-----|
Bb--15b-15b-15b--12--15--15b-15\\\\\\\\-----|
Gb-----|
Db-----|
Ab-----|
Eb-----|

```

v---v dont release just play bent

```

eb-----|
Bb--15b-15b-15b-pb15--12~~~~\\\\\\\\-----|
Gb-----|
Db-----|
Ab-----|
Eb-----|

```

Thats pretty much what i've got so far and with my talent all I can figure out for now.

riff 2 during his singing (the only one numbered), freestyle it for fun idk, have fun it. Blues is all about feeling right?

Email me if you have more please, i love this song.
