Says it's alright  
Take anything

You want from me  
anything

Well she's walkin through the clouds

Fly on little

round With a circus mind that's running wing

Butterflies and zebras and moonbeams

think's about And, uh fairy tales that's all she ever

Riding with the wind

(With reverb or wah wah or something)  
yeah

When I'm sad  
comes to me

She Yeah, yeah, yeah ... little wing wing

With a thousand smiles
