

Jimmy Eat World - 23

Tom: D

This song is absolutely amazing and beautiful, it's really a great song to finish an album and I can't find any words to describe how beautiful is this song, it starts so slow and it always grows until the last epic chorus! I don't think this tab will be totally perfect, but at least is the more accurate I could do it right now and you can use this tab also to write a better version. Where I could, I put the 2nd guitar part and the solos and I hope you're gonna like it and if you find it good rate my tab and watch the others I made... thanx a lot...
