

# Jimmy Eat World - Cautioners

Tom: **E**

Album: Bleed American

The beginning part.. it's played throughout most of the song.

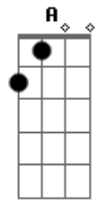

The beginning of the main part, the bassy part for the verse.  
It's palm muted,  
until the chorus

This is where the vocals come in. You can either do an open **A** string, or 7 on the e string, I use the 7

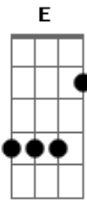

then

The chorus

## Acordes

The Interlude is two parts, I'll be nice and post both, since the rhythm is easy to post

Part 1 is the rhythm. It's only three chords, you can tell where it changes, so I'll just post the chords. It goes in this pattern..

**A** - **E** - **Gbm11** - **A**

Play it four times

**A2** **Gbm11** **E**

Now the lead part. Same as above, play it four times.

continued

That's pretty much it. Those are almost all the parts, barring any of the extra guitar in it. But, that should get you through it.
