

Jimmy Needham - If I Ever Needed Grace

Tom: E

It still feels like yesterday,
A lifetime of empty days,
My hungry heart was desperate for a meal.
I feasted on the Bread of Life,
Forgiveness pierced me like a knife,
And your breath filled up my lungs and I could feel.
And I was broken and all I could say,

Chorus:
Was if I ever needed grace it's now
You are strong when I am weak somehow
I am weak enough to see that I need you to cover me
If I ever needed grace it's now.

Verse 2:
I met the woman of my dreams,
I wanted to give her everything,
But fear came like a thief in the night.
But my journal pages prophesied,
That one day I'd make her my bride,
And soon, my best friend was wearing white.
With our lives ahead all I could say,

[Chorus]

Was if I ever needed grace it's now
You are strong when I am weak somehow
I am weak enough to see that I need you to cover me
If I ever needed grace it's now.

Bridge:
In every joy and pain
Whatever comes my way
God I need your grace (opt Gbm hold until you start verse 3)

Verse 3:
Nine short months til' she arrived
Little hands and lions eyes
And I'm so scared I don't have what it takes.
But I hear your voice, "Son lean on me,"
Father give me eyes to see
All I need's the power of your name

Chorus:
Was if I ever needed grace it's now
You are strong when I am weak somehow
I am weak enough to see that I need you to cover me
If I ever needed grace
If I ever needed grace
If I ever needed grace, it's now...
