

# Joana Castanheira - Happy Place

tom:

**C**

I wish I had woken up with you today

**C7**

I'd kiss your chin and run my fingers through your hair

**Am7**

Maybe we would be lazy and get lil late to work

**Dm**

**F7** But the sun would feel warmer, we'd have our happy place **C7**

**Em7**

But only for a speck of time

**Dm**

Pretend we're not just friends

**Em7**

Tell me some nice lie

**Dm**

To free me from this pain

**Em7**

Let's play we're soft little flowers  
From a preatty lei

**C7**

Matching each other's colours  
And tying up our scapes

**Dm**

We can dance among the leaves  
In every summer breeze

**F7**

The sun will be our best man  
And we will have our brief

**C7** **Am7** **Dm** **F7**

Forever
