

# João Vitor Ferreira - Me Iluminou

tom:

Intro: Am Em F7M Dm E7 Am

Tantos adornos, do que adianta?

Pois as feridas não querem sarar

Ando tão triste, descompassado

Meu coração já não quer se alegrar

Te conheci no último instante

No meu apagar você me iluminou!

Hoje te peço mais uma chance

Tenho certeza, fui criado para amar!

Rosto fechado, amargo sorriso

Meu ar era frio, nunca quis ajudar

Tudo era lícito à minha maneira

Jamais percebi a beleza do mar

Se ao menos soubesse

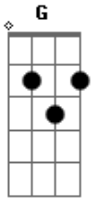

Que a vida é feita de boas ações

E de amar de forma estreita

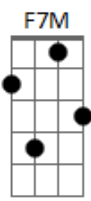

Dissolver o orgulho da alma

E deixar a paz reinar em mim!
