

Joe Brooks - I Got You

Tom: G

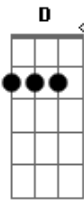

open my eyes its morning the sun shines bright
 It's blindin' my fears away yeah
 I ain't got time for stallin' my mind's made up
 There's only one way to be yeah
 Cuz I got you and well you got me
 One heart we beat, it's everything i need oh
 I got you
 Bare feet, fallin' waves we see the sand

For miles and miles
 like the common tone of this endless light, you sigh
 "isn't life just wonderful?"
 "isn't life just beautiful?"
 Cuz I got you and well you got me
 One heart we beat, it's everything i need oh
 I got you
 And life is wonderful oh oh oh
 I've got you
 With you by my side
