I know this is correct because I have the tab book(therefore
all my john
butler tabs are right!)so dont say its not.

I am so,so,so,so,so sorry about not returning the emails.
Please leave your adress if
to email me. Once again sorry about my lateness to chris from
perth(my email has been down
like 3 months and it recently kicked back up). He tunes the
guitar by tuning the B(2ND)
to the G(3RD) string at the 5th fret. Then tune the D(4TH)
string by puching down
the 7th fret and playing the G. Tune the **A** string(5th) to the
D(now **C**) at the 5th fret.
the low E(6TH) string at the 7th fret to the A(now **G**)at the
7th fret. And my name is
Liam, I am 12 years old as of 2005 and i have only been
playing since Feb05.
