

# John Denver - Come And Let Me Look In Your Eyes

Tom: E

I guess growing isn't hard to do  
 Just stand a-gainst the wall  
 Once I was just two feet high  
 Today I'm six feet tall

But knowing who to listen to  
 Is some-thing else again

Words just whis-tle round my head

Like seasons in the wind

Note: The verses are all the same as this.

Refrão:

All across the water the clouds are sailing  
 They won't let me look at the sky  
 All I want to do is try and find myself  
 Come and let me look in your eyes
