

John Denver - If Ever

tom:

Intro: F Am7 Bb C
F Am7 Bb C

I'd sing you a song without a word
Still you would hear my tune

I'd give you a day without a time
So it won't end too soon

Oh, anything, I would do

And that really is my point of view

If ever, my darling, in my life
I ever had a chance to love you

(Am7 Bb C C)

I'd build you a world made of the dream

That dances in your head

Take a rainbow with colors bright

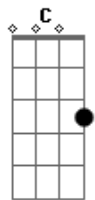

To hang over your bed

Oh, anything, I would do

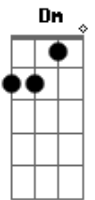

And that really is my point of view

If ever, my darling, in my life

I ever had a chance to love you

Fate's been waiting for the right time

To put us in each other's arms

But why should we sit and waste time?

To start right now would do no harm

Oh, give me a sign and I will show you

The magic of which I speak

Open your heart, let me come in

My love is yours to keep

Oh, anything, I would do

And that really is my point of view

If ever, my darling, in my life

I ever had a chance to love you

If I ever had a chance to love you

If I ever had a chance to love you

If I ever had a chance to love you

If I ever had a chance to love you

If I ever had a chance to love you
