

John Denver - Molly

```
Tom: E
                                                             Ride a windy box car
                                           C )
(com acordes na forma de
Capostraste na 4ª casa
                                                             See a thousand children young and old
When I was a young man, I ran away from home
                                                             Oh that grease paint smile
 Dm
                        (Dm riff)
I went to join the circus
                                                             Can hide your soul
              F
Went to see the cotton candy whirl
                                                            Here comes a carrousel
                  C C
And make me lots of money on my own
                                                             Guess which town it is
       C Am
                                                             Fm
For Molly, oh my pretty Molly
                                                             Feel the thrill!
        F
                                                             Dm
                                                             Grease paint covers everything
But she's waiting all alone
                  F G
          C
Someday soon I will return to her
                                                             But winter's chill
                                                             ( C Dm F G C C Am C C Am F C F C C )
Then I made the big time, Bright lights show biz!
                                                             (Slowly)
                       (Dm riff)
I'm really in the circus!
           F
                                                                 Dm
                                                                                     (Dm riff)
                                                             I'm reading Molly's letter
There's only one thing wrong;
               C C Am
I haven't saved a penny on my own
                                                             The ink is fading
        C Am
For Molly, oh my pretty Molly
                                                             And the page is turning yellow
                                                             C Am C
But she's writing every day F C F G C C
                                                             Long ago I promised Molly
Molly understands so it's okay
                                                            Don't you know I
                                                                                 F G C C C
                                                                           C
(This section isn't entirely accurate to John Denver's version I will close my eyes and go to her
but it sounds fine)
```
