

John Frusciante - A Firm Kick

Tom: A

A firm kick in the pants
 This last chance to get things right
 This was one time I closed an eye
 Looked away from you

Gbm
 Look out for yourself tonight
 Sometimes I have to get things right

A E B Gbm
 I never meant what I said to you
 Give up all the things that you love to do
 I'd never guessed that you'd do me wrong
 I'll never except that dance and song

A E
 A little time to adjust
 Would be just what we need
 I've meant to tell you what I think that you think
 When I cross your mind

Gbm
 Forgone
 Stressed at the light
 What's wrong with being uptight

A E B Gbm
 I never say what I intend to
 But does it mean that much to you
 I'd close call with a glitch in time
 Are you really that happy to be mine

E D
 No I'm not disguising
 All that fighting

E D
 And dreams not coming true
 (lots of effects on E and base) Gbm Db E B (7ª)

Gbm Db
 I will play some light from the sun
 The world by my side
 Gbm Db E B
 And I will see dawn as a forlorn maiden in the sky
 Gbm Db E B
 And I will play a song of thunder you may recognize
 Gbm Db
 You make a never
 E B
 That's forever
 Gbm Db E B
 Knowing what you deny

A E B
 When I revisit the past it's a blast
 I've just gotta move on
 A E B
 I've just let down someone I relied on
 D E
 And I don't see why

Gbm
 How'd we pretty up that speech
 D
 MC talking through me

A E B Gbm
 I've never done what I set out to do
 A E B D
 Don't come to me 'cuz I'll run from you
 A E B D
 Left out of life would I really care
 A E
 Not a whole lot
 B D
 There's nothing for me there

E D E D
 I'll never forget the limits that we set
 E D
 Back when it was our moon
 E D E D
 And I never made a pretense of living with good sense
 E D
 It's really not my strong suit.
