                                                       Eb7
                                                              Maybe she'll hear it when we scream and shout
Gdim
                                                                      Bbm/b5
                                                              And we'll keep it rocking until she comes knocking
Let's go to the park
I wanna kiss you underneath the stars
                                                              Let's go to the park
Maybe we'll go too far
                                                              I wanna kiss you underneath the stars
Bbm/b5
We just don't care, We just don't care,
                                        We just don't care.
                                                              Maybe we'll go too far
                                                              Bbm/b5
                                                              We just don't care, We just don't care, We just don't
You know I love you when you're loving me
Sometimes it's better when it's publicly
                                                                                   love,
                                                              Let's
                                                                        make
I'm not ashamed, I don't care who sees
                                                              let's go somewhere they might discover us
Us hugging and kissing our love exhibition all
                                                                              lost in lust
                                                                         Bbm/b5
                                                                                                  Eb7
                                                              We just don't care, We just don't care, We just don't care.
We'll rendezvous out on the fire escape
I'd like to set off an alarm today
                                                              If we keep up on this fooling around
                                                                        Gb7

                                                                      F#sus4

Let's go to the park

We just don't care, We just don't care, We just don't
                                                              Let's break the rules and ignore society
                                                              Maybe our neighbors like to spy, it's true
                    love,

let's go somewhere they might discover us
               lost in lust
                                                              Let's go to the park
