

John Mark McMillan - I Need You In The Morning

Tom: A
Intro: E G D A

Verse 1
You step into my emptiness until it's all gone
You slide into my starless night and You shine like the sun
You chase away the loneliness whenever You come around
so come on and take off Your camouflage Lord and let me see
You now

Bm Bm7 Bm Bm7 A A A A
I just want You to hang around, I just want You to stay
Bm B7 Bm Bm7 G A
I just want You to hang around and stay, and stay

I need You in the morning, I need You in the evening
and when the sun goes down
I need You in the daytime, I need You in the nighttime
and when the sun goes down
It's getting cold outside, it's getting dark outside
Sit by the fire of Your eyes, sit by the fire of Your eyes
It's getting cold outside, it's getting dark outside
Sit by the fire of Your eyes
