

# Johnny Cash - As Long As The Grass Shall Grow

Tom: A

I met you in the shadows and your face was all aglow,  
 I remember it so well though it was many years ago

We both new something happened without a lot to say,  
 but we had other lives and so we went our separate ways.  
 But our hearts communicated and every time we passed,  
 we were gradually building something that would forever last.

As long (as long) as the moon (as the moon) shall rise,  
 (as the moon shall rise),  
 as long (as long) as the rivers (as the rivers) flow, (as the rivers flow),  
 as long (as long) as the sun (as the sun) will shine,  
 as long, (as long) as the grass, shall grow.

My heart was calling for you when one night you came along,  
 we danced around each other but then we sang our song.

Our harmony was shaky and the pitch not very true,  
 but then you gave in to me and I gave in to you.

We had to fight the world and we fought with all we had,  
 we vowed to be together through the sweet times and the bad.

I hear you whisper every night, may I have this dance ?  
 And though I'm not light on my feet, I always take the chance

We have gone through many storms and often walked through fire,  
 but always our loving faith took us higher and higher.

We know the mystery of life, its love hard and long,  
 (I love you) I love you and I always will as long?

As long (as long) as the moon (as the moon) shall rise,  
 (as the moon shall rise),  
 as long (as long) as the rivers (as the rivers) flow, (as the rivers flow),  
 as long (as long) as the sun (as the sun) will shine,  
 as long, (as long) as the grass, shall grow.
