Johnny Cash - The Beast In Me

Tom: C

```
                              C     F                      G
C
1. The beast in me       is caged by frail and fragile bars,
F                      G                 C
Bb                  D7
    restless by day, and by night rants and rages at the
stars.
      F              G                    C
    God help       the beast in me.

                            C    F                    G
C
2. The beast in me      has had to learn to live with pain,
F                        G                    C         F
    and how to shelter from the rain,
                         G                    C            Bb
D7
    and in the twinkling of an eye might have to be
restrained,
      F             G                    C
    God help       the beast in me.

E                                                          F
    Sometimes it tries to kid me that it's just a teddy bear,
                                                           C
    and even somehow manage to vanish in the air,
                            G
    and that is when I must beware of ?

                            C    F                    G        C
3. The beast in me       that everybody knows,
F                                   G                    C
Bb                D7
    they've seen him out dressed in my clothes, patently
unclear,
                 F                          C
    if it's New York or New Year.
F          G                          C     F   G
C
   God help the beast in me,             the beast in me.
