

Johnny Cash - The Sound Of Laughter

Tom: A

(com acordes na forma de G)

Capo II

Intro: G C D

I stood there in the shadows as they went strollin by

Now she ain't my gal no longer, there's no reason I should cry Well I guess I should have left this town and her far behind

But I knew there went my future, and I couldn't stop the tears For the way that she made fun of me keeps runnin through my mind

At the sound of laughter ringin in my ears

I spent every dime I had on her and when it was gone

'Cause I know I got it comin, I'm not proud of what I done But down here in this darkness, more and more I seem to hear

So i stood there in the shadows, and I had my forty-four

The sound of laughter ringin in my ears I hear the sound of laughter ringin in my ears

Now I'm down here in the jailhouse and i know what brought me here

It was the sound of laughter ringin in my ears

BREAK

Well I guess I should have left this town and her far behind

For the way that she made fun of me keeps runnin through my mind

Well the jury showed no mercy and I never asked for none

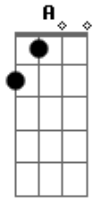

'Cause I know I got it comin, I'm not proud of what I done

But down here in this darkness, more and more I seem to hear

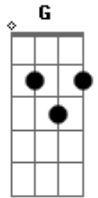

The sound of laughter ringin in my ears

I hear the sound of laughter ringin in my ears
