

# Joji - I Don't Wanna Waste My Time

Tom: A  
Intro: E7M D

E  
I don't wanna waste my time  
If I can't be by your side  
E  
You really shouldn't think about that  
If she can't see where you hide  
E  
And we don't gotta talk about nothing nice  
If you wanna come down  
E  
And she don't gotta know about nothing  
And she don't gotta know  
E7M  
If the stars collide  
Will she relieve my soul?  
E7M  
And when we feel alive  
We know she'll let me go  
E7M  
When you need my lips  
I know you feel all cold  
E7M  
But I promise you my heart is made of gold

E  
I don't wanna waste my time  
If I can't make you decide  
E  
You are only on my mind when I need you  
E  
I don't need to know about  
What you do when the sun goes down  
E  
Cuz I don't gotta know about nothing  
A  
Cuz I don't gotta know  
E  
Cuz I don't gotta know  
A  
Cuz I don't gotta know  
E7M  
If the stars collide  
Will she relieve my soul?  
E7M  
And when we feel alive  
We know she'll let me go  
E7M  
When you need my lips  
I know you feel my cold  
E  
But I promise you my heart is made of gold
