

Jon Bellion - I Robot

Tom: C

I was a human, breathing and thinking
 Eating and drinking, philosophizing
 I was a human, before you killed me
 And ripped my heart out, I knew what love was

Now when they ask me, I just reply slow
 And sound like an iPhone

I do not know love, I am a robot
 (Ba ba ba ba bam bada bum)
 I do not know love, I am a robot
 (Ba ba ba ba bam bada bum)
 I used to know love

Cause I had a fire, passion and desire
 Now all I require are circuits and wires
 Inside was an ocean of soul and emotion
 Then you cut me open, now all that I know is

I am a robot, thoughtless and empty
 Don't know who sent me, don't know who made me
 Electric robot, everything's gray now

Numb to the pain now, I knew what love was

Now when they ask me, I just reply slow
 And sound like an iPhone

I do not know love, I am a robot
 (Ba ba ba ba bam bada bum)
 I do not know love, I am a robot
 (Ba ba ba ba bam bada bum)

I used to know love

Cause I had a fire, passion and desire
 Now all I require are circuits and wires
 Inside was an ocean of soul and emotion
 Then you cut me open, now all that I know is

I am a robot
 I am a robot
 I used to know love

Cause I had a fire, passion and desire
 Now all I require are circuits and wires
 Inside was an ocean of soul and emotion
 Then you cut me open, now all that I know is
 I am a robot
