

# Jonas Brothers - Rollercoaster

Tom: G

Nights, flying the down 10, nearly 2 am

Happiness begins

Days lifted in haze, we weren't just a phase

We weren't just pretend (just pretend)

I remember low lows and high highs

We threw our hands up, palms out to the

Skies iiiiiiiees

It was fun when we were young and now

We're older

Those days when we were broke in

California

We were up-and-down and barely made it

Over

but i'd go back and ride that rollercoaster

It was fun when we were young and now

We're older

Those days that are the worst, they seem to

Glow now

We were up-and-down and barely made it over

But i'd go back and ride that rollercoaster with you

wooh ooh-ooh

wooh ooh

wooh ooh

wooh ooh-ooh (oh, oh)

But i'd come back and ride that rollercoaster

Faith led me to the clouds, reaching for the ground

His life was upside down

Now everything has changed, we found better days

But i still hear the sound

I remember low lows and high highs

We threw our hands up, palms out to the skies

It was fun when we were young and now we're older

Those days when we were broke in california

We were up-and-down and barely made it over

But i'd go back and ride that rollercoaster

It was fun when we were young and now we're older

Those days that are the worst, they seem to glow now

We were up-and-down and barely made it over

But i'd go back and ride that rollercoaster with you

wooh ooh-ooh (yeah, with you)

wooh ooh (with you, with you)

wooh ooh-ooh (oh, oh)

But i'd come back and ride that rollercoaster

It was fun when we were young and now we're older (oh)

Those days that are the worst, they seem to glow now (yeah)

We were up-and-down and barely made it over

But i'd go back and ride that rollercoaster

wooh ooh-ooh (oh, oh)

Nights, flying the down ten, nearly 2 am

Happiness begins
