

# Jonas Brothers - Take a Breath

Tom: C

(verso 1)

(abafado)

**Am** Walked across a crowded street

**Am** Sea of eyes that cut through me, and i saw you in the middle.

Your upset face, you wear it well,

(deixa soar) You camoflage the way you feel when everythings the matter

We've all been down that road before,

Searching for that something more.

(refrão)

**C** Worlds are spinning round

Theres no time to slow it down,

So won't you take a breath,

Just take a breath.

**C** People change and promises are broken.

**G** Clouds can move and skies will be wide open.

**Am** Don't forget to take a breath.

(verso 2)

(abafado)

**Am** Blink our eyes, life's rearranged.

And to our surprise, it's still okay.

It's the way things happen.

Summer comes and then it goes.

Hold on tight and brace for cold

And its only for a moment **Am** (deixa soar)

We've all been down that road before,

Searching for that something more

(refrão)

**C** Worlds are spinning round

Theres no time to slow it down,

So won't you take a breath,

Just take a breath.

**C** People change and promises are broken.

**G** Clouds can move and skies will be wide open.

**Am** Don't forget to take a breath.

(ponte)

**Am** Life seems so sufficated

**Am** Air isnt overrated

(refrão)

(abafado)

**C** Worlds are spinning round

Theres no time to slow it down,

So won't you take a breath,

Just take a breath.

**C** Worlds are spinning round

Theres no time to slow it down,

So won't you take a breath,

Just take a breath.

**C** People change and promises are broken.

**G** Clouds can move and skies will be wide open.

**Am** Don't forget to take a breath.

**C** Worlds are spinning round

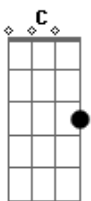

Theres no time to slow it down,

So won't you,

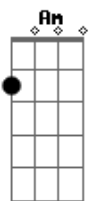

**Am** Dont forget to take a breath.
