

# Jonas Brothers - Take a Breath

Tom: C

(verso 1)

(abafado)

**Am** **C**  
Walked across a crowded street

**Am**  
Sea of eyes that cut through me, and i saw you in the middle.

**C**  
Your upset face, you wear it well,

(deixa soar)  
You camouflage the way you feel when everythings the matter

**G**  
We've all been down that road before,

**F**  
Searching for that something more.

(refrão)

**C**  
Worlds are spinning round

**G** **Ab**  
Theres no time to slow it down,

**Am**  
So won't you take a breath,

**F**  
Just take a breath.

**C**  
People change and promises are broken.

**G** **Ab**  
Clouds can move and skies will be wide open.

**Am** **F**  
Don't forget to take a breath.

(verso 2)

(abafado)

**Am** **C**  
Blink our eyes, life's rearranged.

**G**  
And to our surprise, it's still okay.

**Am**  
It's the way things happen.

**C**  
Summer comes and then it goes.

**G**  
Hold on tight and brace for cold

**Am** (deixa soar)

**G**  
And its only for a moment

**F**  
We've all been down that road before,

**F**  
Searching for that something more

(refrão)

**C**  
Worlds are spinning round

**G** **Ab**  
Theres no time to slow it down,

**Am**  
So won't you take a breath,

**F**  
Just take a breath.

**C**  
People change and promises are broken.

**G** **Ab**  
Clouds can move and skies will be wide open.
