

Jonathan Coulton - Creepy Doll

tom:

Am

[Primeira Parte]

In a town in the woods at the top of a
 Hill there's a house where no one lives
 So you take a big bag of you big city money there and buy it
 Then at night when the house dark
 And you're all alone there's a noise upstairs
 At the top of the stairs there's a door so you take a deep
 breath and try it
 And the flashlight shows you something moving just inside the
 door
 There's a tattered dress and a feeling that you've felt
 somewhere before

[Refrão]

And there's a creepy doll that always follows you
 It's got a ruined eye that's always op-en
 And there's a creepy doll that always follows you
 It's got a pretty mouth to swallow you whole

[Segunda Parte]

So you scream and you close the door
 And you tell yourself it was just a dream
 In the morning you head into town cause you want to go
 antiquing
 In the store there's a strange old man
 With a wandering eye and a withered hand
 When he hands you the old wooden box you can hear his old
 bones creaking
 And you know what you will find inside the moment that you see

That someone carved your name into the tarnished silver key

[Refrão]

And there's a creepy doll that always follows you
 It's got a ruined eye that's always op-en
 And there's a creepy doll that always follows you
 It's got a pretty mouth to swallow you whole

[Ponte]

And when you come home late the doll is waiting there for you
 And when you fix a snack the doll says it would like one too
 The doll is in your house and in your room and in your bed
 The doll is in your eyes and in your arms and in your head
 And you are crazy

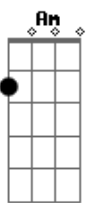

[Terceira Parte]

Now it's late and you head downstairs
 Cause you just can't sleep so you make some tea
 And the doll disapprovingly asks if you really need that much
 honey
 You decide that you've had enough
 So you lock the doll in the wooden box
 You put the box in the fireplace next to your bag of big city
 money
 As the smoke fills up your tiny room there's nothing you can
 do
 It's far too late, you see, the one inside the box is you

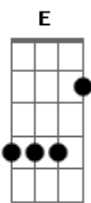

[Refrão]

And there's a creepy doll that always follows you
 It's got a ruined eye that's always op-en
 And there's a creepy doll that always follows you
 It's got a pretty mouth to swallow you whole
