

José Feliciano - For My Love

tom:

Intro: G G G G Gadd9
G C G G G

I can remember when I was much younger searching for love
I can remember when I was alone no one to share my love
But now that I'm grown you came into my life and you
Knew that I can need you woman, woman, yes, it's true uhh yeah

Care for your woman, respect her, protect her
She'll be your helping hand
When there's not a woman beside him a man is not a man
But as for me you've opened up my eyes
So I can see and I can say: glory! Hallelujah
I can say: glory! Hallelujah, I can say: glory! Hallelujah
All for my love, yeah for my love

And when it comes my time I won't be afraid
I won't be afraid uo uo uo no
And when it comes my time will I
I don't want my woman to cry
I've done my time on this earth
I lead a pretty good life

And I gave and had the good and the bad
I can remember when I was much younger searching for love
I can remember when I was alone no one to share my love
But now that I'm grown you came into my life and you uhh
You knew that I can need you woman, woman, yes, it's true uhh
yeah
Care for your woman, respect her, protect her
She'll be your helping hand
When there's not a woman beside him a man is not a man
But as for me you've opened up my eyes
So I can see and I can say: glory! Hallelujah
I can say: glory! Hallelujah, I can say: glory! Hallelujah
All for my love, yeah for my love
I can say: Glory! Hallelujah, I can say: glory! Hallelujah
I can say: Glory! Hallelujah
All for my love, yeah for my love
I can say: glory! Hallelujah, I can say: glory! Hallelujah
I can say: glory! Hallelujah
All for my love, yeah for my love yeah yeah
All right yeah yeah
