

# Joss Stone - Harry's Symphony

Tom: Bb  
Intro: E Eb

This one is designed for 18 and over, over  
18 and over, over

You must be 18 and over

Boy, wont you go home, go home to your mama, your mama

Go home to your papa, your papa

You're to young to be my lover

You got to be careful in this time

Know your role and try learn your line

In this time you cannot move like you're blind

Nobody move cause you will get left behind

I understand you like to smoke my shisha, my shisha

But really! Where's your weed at, weed at?

Tell me you're not a joker smoker

A friend in need is a friend in deed

But a friend with weed is better

If you wanna get high, bring your own supply

I didn't know you was a joker smoker

You got to be careful in this time

Know your role and try learn your line

In this time you cannot move like you're blind

Nobody move cause you will get left behind

You got to be careful in this time

Know your role and try learn your line

In this time you cannot move like you're blind

Nobody will stay cause you will get left behind

( E Eb ) (2x)

I need you to come, Rosie tell him to call me

He said he didn't have a daughter, but he did have a son

Said the lift doesn't work, run up the stairs to come

If you don't come quick, you're not gonna see your son

So he grabbed a bunch of roses and he started to run

Here I come

Skippity-bop, bop, bop, Skippity-woah-oh-oh

Here I come, here I come

Skippity-bop, bop, bop, Skippity-woah-oh-oh

Swing, oh, oh oh, oh

Bad boy, bad boy, what you gonna do

What you gonna do when he come for you

Bad boy, bad boy, what you gonna do

What you gonna do, when he come for you

Now excuse me, while I light my spliff

You got to be careful in this time

Know your role and try learn your line

In this time you cannot move like you're blind

Nobody move cause you will get left behind

You got to be careful in this time

Know your role and try learn your line

In this time you cannot move like you're blind

Nobody will stay cause you will get left behind

## Acordes
