Journey - Walkin Away From The Edge

Tom: G

```
   Em           E2
   Watchin' the sun come up
     C7M               Em
Like I've never seen it before
C                      C
   I've been gone for a long time
        Am                  D
There's no place to hide anymore
Em              E2
   I feel the light on my face
C7M                  Em
Touchin' me down to my soul
C                    C
   Waking up from a bad dream
Am                      D
Something I had to let go

Em             C
   Can't blame anyone
    D                       Bm
For all of the damage I've done
Em          C
   I had to face myself
           D
Before I'd fall down I found I could turn around

G                       D
   Walkin' away from the edge
                        Em
While I can still live to tell
G                       D
   Coming back from the dead

                      F          C
On the road between heaven and hell
Em                D
   Freedom comes day by day
         Am7                  C
Till the demons are out of my head
                        Em
Walkin' away from the edge...

Em               E2
   You don't know how lost you are
     C7M                      Em
Till you're spinning out of control
C                             C
   Before you know it you've gone too far
         Am                       D
Left the rest of the world far below
Em              E2
   Friends are gone one by one
       C7M                   Em
I'd pretend I'm alright on my own
       C                  C
My disguise just starts wearin' thin
       Am                   D
Until all I've become is alone

Em                   C
   I reached out to anyone
          D                          Bm
Who would tell me what I'd want to hear
Em                           C
   But I'm the one who could save myself
  D
I couldn't look down, I turned around before it was too late
