

Joy Division - 24 Hours

Tom: F

Cada parte da música será identificada por "riff's".

1 riff:

2 riff:

So this is permanence
 Love shattered pride
 What once was innocence
 turned on its side
 A cloud hangs over me
 marks every move
 Deep in the memory
 what once was love

[1 riff]
 Oh how I've realized
 how I wanted time
 Put into perspective
 tried so hard to find
 Just for one moment
 I thought I'd found my way
 Destiny unfolded
 I watched it slip away

[2 riff]
 Excessive flash points
 beyond all reach
 Solitary demands for
 all I'd like to keep
 Let's take a ride out
 see what we can find
 Valueless collection of
 hopes and past desires

3 riff:

[1 riff]
 I never realized
 the lengths I'd have to go
 All the darkest corners of
 a sense I didn't know
 Just for one moment
 I heard somebody call
 Looked beyond the day in hand
 There's nothing there at all

[2 riff]
 Now that I've realized
 how it's all gone wrong
 Got to find some therapy
 this treatment takes too long
 Deep in the heart of
 where sympathy held sway
 Got to find my destiny
 before it gets too late

riff final:

Acordes
