

Joy Division - Atrocity Exhibition

Tom: Bb

These are the main riffs in the song. God knows what the producer has done to make them so crazy on the Album lol

Use palm mutes during the bridge section.

Doesn't seem a lot, but this is all the guitar does in the song, except for the solo seems to be Hooky (Who played Guitar on this song) going crazy with a slide and a whammy which is impossible to tab unfortunately $\frac{3}{4}$ It's easiest to hear the guitar on the live that appears on i\$Heart and Souli" (CD).
