Focused on my altered state

## Acordes

I would disorientate

I found the road

I was lost and found I had hit the ground

Suffering alone amongst the crowd

No one at hand, having no plan

After so long, of going wrong

I was lost but now...I found

(solo) Em C G D Am C D

I found the road

I was lost and found

I had hit the ground

I was lost but now

That I don't need no one to survive

Starting to run, shedding the load

Now I can see I'm close to home

After so long, of going wrong

You've got to believe alone, you'll rise

I stumbled through a barren land

That I was lost and could find my way

Drifting on a sea of doubt And no one ever heard me shout
