

Judas Priest - Prisoner Of Your Eyes

Tom: B

m

Intro: Bm G A Gb
Bm A G D Gb

When I saw your face
I became a prisoner of your eyes
And I would do just anything
To stay and be with you

You know there are times
When I let myself wonder
As I was going under
You pulled me back to Earth

Don't you hear me crying?
Take me in your arms again
Tell me that you're trying
Or is our love a lie?

Love is blind
And love deceives you
You came along and captured me
Now I'm a prisoner of your eyes
Trapped in time
I cannot leave you
I'm just a prisoner of your eyes

As each day goes by
I've given up completely
I've locked myself inside your heart
And thrown away the key

Only time will tell
If I can live without you
Can you see into the future?
Will you ever set me free?

Don't you hear me crying?
Take me in your arms again

Tell me that you're trying
Or is our love a lie?

Love is blind
And love deceives you
You came along and captured me
Now I'm a prisoner of your eyes
Trapped in time
I cannot leave you
I'm just a prisoner of your eyes

In this heartache
We can try and start again
Stop the heartbreak
A little time will help to kill the pain
