= artificial harmonic

ps = pick scrape
% = repeat phrase

natural harmonic

X = ghost note
Tr = trill

troubleshooter
(tipton/halford/downing)

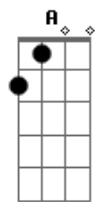

You've got it, i want it. my little troubleshooter
I need it, you feed it. my hunger drives me to ya
You bring me round with your velvet hands
You're gettin' new life to me
You put me back to promised land
Just where you know i should be

You can take me
You can shake me
You can break me down

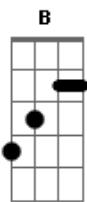

You're givin' i'm gettin'. i'm gettin' satisfaction
You're makin' i'm takin'. i want some heavy action
You're bendin' and i'm mendin'
Gettin' back together
You really got what it takes
To make a bad man better

You can take me
You can shake me
You can break me down
