

# Juice Wrld - Bad Energy

tom:

Intro: Uh, uh, uh-uh, uh-uh, uh, uh (Daytrip took it to ten, hey)

[Primeira Parte]

Swallow all these pills with my pride Uh  
 Married to my highs, you may kiss the bride  
 Trouble in my brain, see it in my eyes  
 I got voices in my head, they keep me up at night  
 Said I was okay, but I'm lying, feel like that I'm dying  
 Soul screaming and crying, feel my brain frying  
 Try to numb the pain, all the drugs I've been buying  
 This oxy gettin' pricey, pour the codeine in the Hi-C  
 Blood red blend in the Hi-C  
 I've been doing so much wrong, even though ma told me to do the right thing  
 Poppin' pills all night long, in the studio pourin' out my feelings  
 Can't explain this feeling

Kinda feels like I'm losing even though I'm winning

[Refrão]

Drain out bad energy (Drain out bad energy)  
 Forget the bad memories (Forget the bad memories)  
 Forget the bad memories (Forget the bad memories)

Drain out bad energy (Drain out bad energy)  
 Forget the bad memories (Forget the bad memories, ayy, ayy)  
 [Segunda Parte]

Multi-million dollars  
 All mine from the start  
 Codeine kills the drama  
 And the trauma in my heart  
 Just got a call from the dark side  
 Stab wounds in my chest, but I'm alright  
 I miss my friends, I hate this spotlight  
 I love my girl, I hate the thot life  
 Yellow diamonds, shiny pearls  
 I'm tryna give her the world  
 I'm tryna show her the world  
 She ain't no ordinary girl  
 I know she know, I know she know I'm down and out  
 Life is a ocean, demons I've been drownin' out
