

Juice Wrld - Lean Wit Me

tom:

G

Intro: Dbm

Drugs got me sweatin', but the room gettin' colder

Lookin' at the devil and the angel on my shoulder

Will I die tonight? I don't know, is it over?

Lookin' for my next high, I'm lookin' for closure

[Refrão]

Lean with me, pop with me

Get high with me if you rock with me

Smoke with me, drink with me

Fucked up liver with some bad kidneys

Lean with me, pop with me

Get high with me if you rock with me

Smoke with me, drink with me

Fucked up liver with some bad kidneys

[Primeira Parte]

Told her if I die I'ma die young

Every day I've been gettin' fucked up

Finally know the difference between love and drugs

Shorty tell me I should really sober up

This shit ain't fiction, it's too real, too real

Fuck one dose, I need two pills, two pills

I'm lookin' for trouble so I know I'm gonna find it

Ring, ring, plug hit my phone, perfect timin'

I know I'm not right

But I'm not wrong, no, I'm not wrong

Girl, you hate it when I'm too high

But that's where I belong, where I belong

[Refrão]
