

# Juice Wrld - Life's A Mess (feat. Halsey)

tom:

Intro: Em D G Bm A  
 Have you ever fallen head over heels for somebody?  
 Oh, not just somebody, no, no (rex, you did again)

[Primeira Parte]

Have you ever fallen head over heels for somebody  
 That made promises that give you the world? (Um)  
 I really hope they held you down  
 I really hope it was no lying 'cause when heart breaks  
 It feel like the world's gone  
 But if the love's real, you'd feel your soul roar like a lion  
 And you'd finally let bygones be by-gones  
 Don't throw in the towel, I know it feels like you're the only  
 one trying  
 You just gotta learn to live and love on  
 [Pré-Refrão]

I belong with the one put on this earth for me  
 Everybody has their someone, just gotta look and see  
 I'm screaming out, "Lord, help me, I've been lonely"  
 That's when you accept me  
 Then you set me free  
 [Refrão]

Uh, some times life's a mess (uh)  
 I get high when I'm upset  
 I remember when me and love didn't click  
 Searching for somethin' real, then I found it  
 Uh-uh, sometimes life's a mess  
 Yeah, I get high when I'm upset  
 I remember when me and love ain't click  
 Looking for somethin' real, then I found it  
 [Segunda Parte]

Been pretty fucking bad, but it's better now  
 Through the trials and tribulations, I found my way out  
 Feel all of the good and bad vibrations all around  
 All around us, they surround us

Was a lost cause, with some lost love  
 It ain't my fault, pain chose us, then I found her  
 My whole world turned upside down, uh  
 But for the better

[Pré-Refrão]

[Bridge]

(Then I found her) oh (then I found her) ah  
 (Then I found her) oh (then I found her) ah  
 Oh ah  
 Oh ah

[Terceira Parte]

Thank God, I finally found you  
 You put the light in my eyes when I'm around you  
 I'm too flawed to hold you down, but  
 Don't wanna be here alone  
 And I thank God, I finally found you  
 I'll put the light in your eyes if I'm allowed to  
 I'm too flawed to hold you down, but  
 Don't wanna be here alone

[Final] Em D Bm A
