

# Julian Casablancas - Where No Eagles Fly

Tom: G  
Intro: Baixo:

Intro: Guitarra:

Please, come on babe, they'll end up all confused  
What's the point of telling people if they won't use it?  
Fly on the wall, bird of prey in the mall  
It's the eye in the sky, where no eagles fly

Predators eat

(Intro Baixo)

(Intro Guitarra)

The wolf will cry sheep as they take him away  
We plot in our sleep but follow orders all day  
The rhythm is for you but the song is for me

The meaning might be secret but the melody is free

Let all my big dreams sink in  
No one to enjoy it with  
Oblivious, stay oblivious  
Why can you not be more like me?  
Hiding in a nearby tree

C G B E Até o final

Business, business, I forget  
Pray for predators, I guess  
Uh-oh, uh-oh, here we go, all our future's thru that door

Future future's come to this, everybody cheats I guess  
Let's go down to Mexico, there's a couple guys I know  
All our future's come to this, I don't want my friends to know  
All our future's come to this, I don't want our friends
