

Julie and the Phantoms - Bright

```
tom:
Intro: F Dm C Bb
[Verse 1]
Sometimes I think I'm falling down
I wanna cry I?m calling out
For one more try to feel alive
And when I feel lost and alone
I know that I Can make it home
Fight through the dark and find the spark
[Pre-Chorus]
Life is a risk but I will take it
Close my eyes and jump
together I think that we can make it
Come on let?s run
[Chorus]
And rise through the night you and {\bf I}
We will fight to shine together bright forever
And rise through the night you and {\tt I}
We will fight to shine together bright forever
In times that I doubted my self
I felt like I needed som? help
Stuck in my head with nothing left
I feel som?thing around me now
```

Acordes

```
So unclear, lifting me out
I found the ground I'm marching on
[Pre-Chorus]
Life is a risk but I will take it
Close my eyes and jump
together I think that we can make it
Come on let?s run
[Chorus]
And rise through the night you and {\bf I}
We will fight to shine together bright forever
And rise through the night you and I
We will fight to shine together bright forever
[Bridge]
In times that I doubted my self
I felt like I needed some help
Stuck in my head with nothing left
And when I feel lost and alone
I know that I Can make it home
Fight through the dark and find the spark
And rise through the night you and I
We will fight to shine together bright forever
And rise through the night you and {\bf I}
We will fight to shine together bright forever
```
