Juliet Simms - Not Broken Yet

Tom: D intro: D -G 2x Back when we first kissed it felt like every star above our heads aligned Every little piece fell into place and every single moment made us feel alive Never used to be so complicated No in between just black and white When everything turns to grey I still see you Bm When the cold won't go away I can still feel you Even when the sky is falling and I'm hanging on by a thread I'm standing on the edge of nothing But I know it's not broken G I know it's not broken yet п Funny how life throws us punches you kick and scream but it just keeps coming on Maybe every dream that seemed to fade will find another way to live again some day Never used to be so complicated No in between just black and white When everything turns to grey

A I still see you When the cold won't go away G I can still feel you D Even when the sky is falling
