

Justin Bieber - Get Used To It

Tom: C

Subjected to my system, reflecting on the days
 When we used to be just friends
 Protected both our interests, our trust was in a bank
 That's where our hearts were safe
 And then we got closer
 Separated from my ex 'til we got closure
 Ooh, on every visit, feelings got stronger
 Now this is out of our hands, our love is here to stay

So get used to me checking in all day
 Get used to me falling through just to see your face
 There ain't a moment I won't need your brace
 Get used to me touching you, get used to me loving you
 Oh get used to it, hey
 Oh get used to it, hey
 Oh get used to it, oh
 Oh get used to me holding you, get used to me woeing you, oh
 get used to it

And I'ma April shower you, forever if I May
 'Til your flowers bloom in June
 Make sure that our fireworks be our 4th of July for life
 As long as you stand right by my side
 Keep growing closer throughout October
 Ooh counting down, it's almost Christmas eve
 Oh seven days shy of a New Year's eve
 Then we'll be celebrating

So get used to me checking in all day
 Get used to me falling through just to see your face
 There ain't a moment I won't need your brace
 Get used to me touching you, get used to me loving you
 Oh get used to it, hey
 Oh get used to it, hey
 Oh get used to it, oh
 Oh get used to me holding you, get used to me warming you, oh
 get used to it

I ain't going nowhere, I ain't going nowhere, oh no
 I ain't going nowhere, I ain't going nowhere, oh no
 Put your faith in me, I'll be all you need, I swear yeah yeah
 I'm gon' be right here, yeah

So get used to me checking in all day
 Get used to me falling through just to see your face
 There ain't a moment I won't need your brace
 Get used to me touching you, get used to me loving you
 Oh get used to it, hey
 Oh get used to it, hey
 Oh get used to it, oh
 Oh get used to me holding you, get used to me warming you, oh
 get used to it
 I know you getting used to it, I know you getting used to it
 Get used to it
 I know you getting used to it, I know you getting used to it
 Oh get used to it
