(Mesmos acordes a música inteira)

I'm going through all the emotions  
Tryin' to find a reason  
Why we ended that way  
Nothing in life is perfect  
When you're changing like the seasons  
That's what they used to say

If it's gonna sleep alone at night  
I don't wanna close my eyes  
Wanna give you all I have to give  
I'm not holding back this time  
Now that I'm back around you  
Nothing around me matters  
Hope you feel the same

First I'll acknowledge  
Our trust has been broken  
A successful recovery  
I pray for us at night  
Bless me with a second chance  
Never thought I'd see your face again  
Learned a lot through trial and error  
I try to make it right, make it right

Make it right, make it right  
It's time to do you right

You know I'mma do you right  
You know I'mma do you right  
I'mm do you right  
You know I'mma do you right
